Pizzagate because Clinton. Involves the Clinton Foundation.

Barry Sherman and his wife Honey - Canadian billionaires re Apotex Pharmaceutical/s - were found hanged in their home by a realtor. Police are investigating. http://www.dailymail.co.uk/news/article-5185511/Canadian-police-probe-suspicious-death-billionaire.html

The Shermans were under investigation for a liberal fundraiser scandal. https://globalnews.ca/news/3030352/liberal-fundraisers-being-investigated-by-lobbying-watchdog/

According to the Health and Human Rights Journal https://www.hfrjournal.org/2013/08/a-one-time-only-combination-emergency-medicine-exports-under-canadas-access-to-medicines-regime/ there is a clear connection between Apotex and the Clinton Foundation.

Read the article but this is the pertinent part:

MSF had been conducting talks with a number of developing countries to encourage them to make use of the mechanism, but all efforts had been unsuccessful until Apotex was put in touch with the Clinton Foundation, which led Apotex to Rwanda. 70

In discussion with MSF, developing countries reported that they did not wish to self-identify because of pressure from pharmaceutical firms and the World Bank. 71 Unless a country self-identifies, generic firms are not able to obtain a voluntary or compulsory license, so the process stalls. For months, until Rwanda came forward, it appeared as if no drugs would ever be produced under CAMR. In fact, facilitation by the Clinton Foundation followed the Canadian HIV/AIDS Legal Network at the 2006 XVI International AIDS Conference. The legislation

MK Ultra’s “mind control” experiments generally centered around behavior modification via electro-shock therapy, hypnosis, polygraph, radiation, and a variety of drugs, toxins, and chemicals. These experiments relied on a range of test subjects: some who freely volunteered, some who were coerced under coercion, and some who had absolutely no idea they were involved in a sweeping defense research program.

With the advent of MK-Ultra, the government’s interest in LSD shifted from a defensive to an offensive orientation. Agency officials noted that LSD could be potentially useful in “marching control of bodies, whether they were willing or not.”

We became riders on the storm.

Storms are created when a center of low pressure develops with a system of high pressure surrounding it. This combination of opposing forces can create winds and result in the formation of storm clouds such as cumulonimbus. Small localized areas of low pressure can form from hot air rising off hot ground, resulting in smaller disturbances such as dust devils and whirlwinds.

Okay, who's talking shit?
This report summarizes the results of our review of the GEMS election management system, which counts approximately 25 percent of all votes in the United States. The results of this study demonstrate that a fractional vote feature is embedded in each GEMS application which can be used to invisibly, yet radically, alter election outcomes by pre-setting desired vote percentages to redistribute votes. This tampering is not visible to election observers, even if they are standing in the room and watching the computer. Use of the decimalized vote feature is unlikely to be detected by auditing or canvass procedures, and can be applied across large jurisdictions in less than 60 seconds.

GEMS vote-counting systems are and have been operated under five trade names: Global Election Systems, Diebold Election Systems, Premier Election Systems, Dominion Voting Systems, and Election Systems & Software, in addition to a number of private regional subcontractors. At the time of this writing, this system is used statewide in Alaska, Connecticut, Georgia, Mississippi, New Hampshire, Utah and Vermont; and for counties in Arizona, California, Colorado, Florida, Illinois, Indiana, Iowa, Kansas, Kentucky, Massachusetts, Michigan, Missouri, Ohio, Pennsylvania, Tennessee, Texas, Virginia, Washington, Wisconsin and Wyoming. It is also used in Canada.

**Fractionalized vote:**

Instead of “1”, the vote is allowed to be 1/2, or 1+7/8, or any other value that is not a whole number.

**What fractionalized votes can do:**

They allow “weighting” of races. Weighting a race removes the principle of “one person-one vote” to allow some votes to be counted as less than one or more than one. Regardless of what the real votes are, candidates can receive a set percentage of votes. Results can be controlled. For example, Candidate A can be assigned 44% of the votes, Candidate B 51%, and Candidate C the rest.
